KED TEL

Looking for a cost effective telephony solution for your hotel / resort but Have You Asked?

- Does it support smart phone as an extension for guest / staff?

- Can I send instant SMS to guest during check-in & check-out?

- Does it support billing facility for room call?

- Can I schedule wake-up call for guest?

- Can I provide VoIP calls for international travellers?

IP PBX - Hospitality

KEDITEL brings a complete integrated telephony solution which facilitates better and efficient communication in the hospitality sector. With KEDITEL IP PBX, hotels / resorts can now provide superior service to guest and enhance the customer experience.

FEATURES:

Smart phone as extension with Wi-Fi Client: *KEDITEL* IP PBX supports smart phones as extensions within Wi-Fi range. This features helps the guest to access on duty room service staff easily for instant services.

Video Conference facility: *KEDITEL* IP PBX has in-built web based video conferencing facility which allow the business traveller to conduct video conference on request from their room. Also the hotels can use video conference for their internal meeting with their branches.

Conference bridge faciltiy: With in-built conference bridge facilty, *KEDITEL* IP PBX allows the business traveller to have call conference on request from their room with no cost.

SMS alert for check-in & check-out: This feature enables front desk to send instant SMS to guest during check-in and prior to check-out time.

Room call billing: *KEDITEL* IP PBX can be easily integrated with call accounting software and generate the room call bill instantly.

Wake-up call facility : This feature allows to schedule wake-up calls either from front desk or guest room and play a predefined message.

VoIP Call : *KEDITEL* IP PBX allows to have VoIP call facility to international guest on request, reducing calling cost for international travellers.

Other Features:

- Built in call recording
- Call detail report
- Voice mail
- Voice mail to email
- Fax to email
- Call forward & call back
- Auto attendants
- Custom message
- Receptionist console
- Third party software integration (CRM, HMS, ERP, PMS)
